

# Andrew Martin

Frontend Engineer | BS Information Technology | UAE Golden Visa Holder

+971-54-737-7326 @ avm.andrewmartin@gmail.com <https://www.linkedin.com/in/andrew-martin-80b898253/>

## SUMMARY

Frontend Engineer with expertise in developing responsive user interfaces and implementing internationalization features. Experienced in utilizing CSS and JS frameworks such as React.js, Next.js, and Chakra UI. Recently completed an internship at Tech Unicorn, contributing to various internal projects, website internationalization, and Power BI integration.

## EDUCATION

BS Information Technology  
Middlesex University  2019 - 2022  Dubai, UAE GPA **4.0** / 4.0

International Foundation Programme  
Middlesex University  2018 - 2019  Dubai, UAE

## WORK EXPERIENCE

Frontend Engineer Intern  
Tech Unicorn  02/2024 - 05/2024  Dubai, UAE

- Developed responsive user interfaces and custom UI components for various projects using Chakra UI, TypeScript, and React.
- Implemented internationalization features for
- Next.js websites CX and Tech Unicorn, including localization and RTL alignment.
- Created dashboard application to display Power BI dashboards and implemented authentication using MSAL.
- Developed a peer-to-peer audio and video call application using Azure Communication Services SDK.
- Created a responsive Ecommerce UI with Chakra UI, TypeScript, and React Query, including dark/light mode functionality and product slider.
- Demonstrated expertise in Azure DevOps for version control, responsible for editing, updating, deleting, and pushing new changes, as well as creating pull requests.

## PROJECTS

### Blog Application

<https://github.com/andrew-m45/blog-app>

React blog application with CRUD functionality

- Implemented REST API to store, retrieve, update and delete posts on MySQL
- Authenticating user login and sessions using JWT
- Used React, Hooks(useEffect/useState), Asynchronous API, Express, JWT, MySQL, React Router

### GitHub User Search

<https://github.com/andrew-m45/github-search>

Github user search to displays user public repos, gists etc.

- Created a website to search users/repos using GitHub API
- Utilized Context and useReducer Hooks to perform state updates
- Used React Hooks(useEffect/useState/useContext/useReducer), Asynchronous API, React Router

## SKILLS

### Frontend

React.js Next.js Chakra UI  
Material UI Tailwind CSS MobX  
React Query Vue.js HTML CSS  
Javascript UX/UI API Integration

### Backend

MongoDB Node.js MySQL PHP  
REST API Express.js SQL Server

### Development & Tools

Github Git Azure DevOps  
Selenium VS Code Figma Miro  
Intellij

## STRENGTHS

-  **Detail-Oriented**  
Known for meticulous attention to detail, ensuring accuracy and precision in all tasks undertaken.
-  **Effective Collaboration**  
Proven ability to collaborate effectively with team members, fostering a cooperative and supportive work environment.

## TRAINING / COURSES

### Digital Skills: User Experience

Accenture via Futurelearn, 2022

### Meta Front-End Developer Certificate

Meta via Coursera, Ongoing
